

Rashmi Wankhade

Full-Stack Developer (React · JavaScript · Node.js · MongoDB)

[Nagpur,Maharashtra] | [95458107181] | rashmiwankhade99@gmail.com | GitHub: github.com/rashmiw333 | [\[Portfolio\]](#)

PROJECTS:

Anvaya CRM — Lead Management CRM

Tech: React, JavaScript, Node.js, Express, MongoDB, Mongoose, Chart.js

Built a full-stack CRM to manage leads through sales stages, assign sales agents, add comments, edit/delete leads, and track pipeline activity. Implemented REST APIs, reusable React components, URL-based lead handling, and reporting dashboards with charts.

Electromart Application

Tech: React, JavaScript, Bootstrap, Node.js, Express, MongoDB, Mongoose

Developed an electronics shopping application with product listing, category/rating filters, price sorting, search, product details, wishlist, cart management, address handling, user profile, and checkout-related flows. Connected the React frontend to a MongoDB-backed Express API.

SKILLS

- Frontend: React, JavaScript, HTML, CSS, Bootstrap, React Router
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB, Mongoose
- Tools: Git, GitHub, Postman, Vercel

LEARNING & DEVELOPMENT

- Built progressively from React UI development to full-stack applications with REST APIs and MongoDB.
- Practiced reusable hooks, Context API, routing, CRUD operations, API integration, and data visualization.
- Worked through deployment and debugging workflows using GitHub and Vercel.

EDUCATION

[B.E] — [Amravati University] | [2017]

TECHNICAL HIGHLIGHTS

- Built full-stack applications using React, Node.js, Express.js and MongoDB.
- Implemented REST APIs, CRUD operations, React Router, Context API and custom hooks.
- Integrated frontend applications with backend APIs and handled loading, error and form states.
- Deployed applications using GitHub and Vercel.
- Created reporting dashboards and data visualizations using Chart.js.
