Rashmi Wankhade

Full-Stack Developer (React · JavaScript · Node.js · MongoDB)

Nagpur, Maharashtra | 95458107181 | rashmiwankhade99@gmail.com | GitHub | Portfolio

SKILLS

- **Frontend:** React, JavaScript, HTML, CSS, Bootstrap, React Router
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, Mongoose
- **Tools:** Git, GitHub, Postman, Vercel

PROJECTS:

Workasana — Task Management & Team Collaboration | Live *Oct'26 – Nov'26*

Tech: React · JavaScript · Node.js · Express.js · MongoDB · Mongoose · Chart.js

- ➢ Developed a full-stack task management application with 5+ core features for organizing projects and teams, assigning tasks, and tracking deadlines and work progress.
- ➢ Implemented JWT-based authentication, protected routes, and user-specific task retrieval.
- ➢ Built task workflows for creation, editing, deletion, filtering, and reporting across projects, teams, owners, status, priority, and tags.

Anvaya CRM — Lead Management CRM | Live *Jul'26 – Sep'26*

Tech: React · JavaScript · Node.js · Express.js · MongoDB · Mongoose · Chart.js

- ➢ Built a full-stack lead management CRM with 5 lead lifecycle stages to track leads across sales stages, assign sales agents, and manage lead updates.
- ➢ Implemented 4 core React workflows for lead status, comments, editing, deletion, and detailed lead views.
- ➢ Integrated REST APIs with Node.js, Express.js, and MongoDB, and created Chart.js dashboards for pipeline and closed-lead reporting.

Electromart Application | Live *Apr'26 – Jun'26*

Tech: React · JavaScript · Bootstrap · Node.js · Express.js · MongoDB · Mongoose

- ➢ Architected a full-stack electronics shopping application with 6+ core shopping workflows, including product browsing, search, product details, wishlist, cart, and user profile.
- ➢ Implemented 4 product discovery features including category filtering, rating filtering, price sorting, and search; connected the React frontend to a MongoDB-backed Express.js REST API to support product and shopping data flows.

BLOGS:

Understanding Custom Hooks in React with a Simple Counter Example — DEV Community

- ➢ Explored reusable React logic using useCounter and useLogger through a simple counter application.
